

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-6007	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes, we would like to share some raw data.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	We are willing to share the synthesis and sequence information of peptides, as well as the data on the influence of polypeptides on cell viability at the cellular level.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	No
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Researchers interested in peptides and myocardial protection.
8	For what type of analysis or purpose?	As reference and reference.
9	How or where can the data/documents be obtained?	Emails: lmqian@njmu.edu.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
